EXPERIENCE :

❖ **Software Developer Intern | Corefinexperts Global Technologies Pvt Ltd Pune**   **Jan 2024- Present**
- Developing two fintech projects, applying React.Js and Next.Js to create user-centric interfaces and MongoDB for backend data management.
- Leading the customer support-focused development of one project, while overseeing the full SDLC implementation for the other.
- My tech stack includes **React.JS, Next.Js, TypeScript, Tailwind CSS and MongoDB.**
- Following Agile methodologies | Collaborating with cross-functional teams to gather requirements, iterative feedback, and deliver scalable solutions, enhancing user satisfaction and project efficiency.
- Benchmarking the existing system to identify unique and relevant features for the development of the UI
- Managing an IT team as a **Team Lead** discussing all the daily tasks and reviewing the outcomes.

❖ **Web Developer Intern | Prodigy InfoTech Mumbai, Maharashtra**   **Aug 2023 - Sep 2023**
- During the internship as a web Development intern, I had the incredible opportunity to dive into the world of web development and gain valuable hands-on experience.

PROJECTS :

❖**BrainDump (LINK)**   **Feb 2023 - May 2023**
- This is a Note-making Android app, Users can write, update and delete notes. Users can set reminders, give it a tag name, set priority and make deadlines it is available in light, dark, and dynamic colour themes. Implemented search functionality for searching by names and tags.
- Technology: ●Kotlin ●XML ●Android Studio ● Room persistence library.

❖**Shopify (LINK)**   **May 2023 - Jully 2023**
- Developed a web-based application and optimized an e-commerce platform called Shopify. As the backend developer, I utilized PHP and MySQL on the XAMPP server for the business logic. Ensured a smooth and engaging user experience for the application
- Technology: ●HTML ●CSS ●JavaScript ●PHP.
